InterSystems Official
Andreas Dieckow · 7 dic, 2016

Platform Compatibility: macOS (OS X)

Beginning with the next release after 2017.1, InterSystems products will no longer be offered on macOS (OS X) as a Server platform. This platform has been re-classified and will be available as a Development platform in future releases.
Products: Caché, Ensemble

Expected Availability: next major release after 2017.1
