Solved: Incompatible browser when editing a BPL

When I open a BPL in Atelier and right click 'Open diagram editor' I get a Java Incompatible browser error message (see below).

I'm using Windows 8.1, Atelier 1.0.190 and IE 11.

All the M.S. updates are up to date.

I also have firefox and chrome installed.

Trying to change default browsers etc. did not work.

```
java.lang.RuntimeException: Incompatible browser is installed. Please update your sys
tem browser.
