Use MDX

Hi there,

We need your help, in the build pivot with DMX, we don't can run the pivot. The MDX use is:

```
WITH MEMBER [Measures].[CondicionesContCompleta] AS ( If([Measures].[CondicionesContCompleta] = Null,
0,[Measures].[CondicionesContCompleta] ) ) SELECT NON EMPTY ( [Gerencia].Gerencia.[Gerencia] ) ON
ROWS, NON EMPTY ( [Measures].[CondicionesContCompleta] ) ON COLUMNS FROM [Condiciones]
```

and when we executed the pivot display the next dialog.

Error#5001: Expected operator within tuple: ('SELECT' @pos 156)(2)
