## Error al migrar una instancia de HS a IRIS

Después de migrar varias HS in place a IRIS me he encontrado una que no es capaz de terminar, da un error que no es muy claro.

He mirado el log de instalación y pone lo mismo. Lo unico curioso de esta instancia es que tiene Sublevel Mappings en el CPF:

```
Global_histo.tHistoWfeRouteHistoryD=PARTITIONINDEXES,32
Global_histo.tHistoWfeRouteHistoryD(20203435):(END)=HISTOAUDIT
Global_histo.tHistoWfeRouteHistoryD(BEGIN):(20203435)=PARTITIONINDEXES
Global_histo.tHistoWfeRouteHistoryI=PARTITIONINDEXES
Global_histo.tHistoWfeRouteHistoryS=PARTITIONINDEXES,32
Global_histo.tHistoWfeRouteHistoryS(20197309):(END)=HISTOAUDIT
Global_histo.tHistoWfeRouteHistoryS(BEGIN):(20197309)=PARTITIONINDEXES
```

```
ERROR: <SUBSCRIPT>EMSCheckRoutineMapOverlap+92^NSPMAP in reindexing., Cache error: <ROLLFAIL>%TRollBack+10^%occTransaction, LINE: 'Global_histo.tHistoWfeRouteHistoryD(BEGIN):(20203435)=PARTITIONINDEXES' at line 993
```

## Error al migrar una instancia de HS a IRIS

```

A alguien se le ocurre que mirar? parece que tiene un problema reconstruyendo los indices pero no se que mas mirar...
