Error: connect ECONNREFUSED 127.0.0.1:52773

Intento conectar Objectscript a Intersystems en VSCode pero me aparece este error, soy nuevo en esto, no se si estare cometiendo algun error en la configuracion, segui este tutorial <https://intersystems-community.github.io/vscode-objectscript/configuration/>

adjunto capturas de pantalla

.vscode/settings.json

```
> .vscode > {} settings.json > {} objectscript.conn
{
  "objectscript.conn": {
    "server": "test",
    "ns": "USER",
    "active": true,
  }
}
```

settings.json (Servidor)

```
> Users > el_ro > AppData > Roaming > Code > User > {} settings.json > {}  
1 {  
2   "intersystems.servers": {  
3     "test": {  
4       "webServer": {  
5         "scheme": "http",  
6         "host": "localhost",  
7         "port": 52773,  
8       },  
9       "username": "_SYSTEM"  
10    }  
11  }  
12 }
```

ERROR

```
Error: connect ECONNREFUSED 127.0.0.1:52773  
Check your server details in Settings (localhost:52773[USER]).  
Error: connect ECONNREFUSED 127.0.0.1:52773
